

Self assessment tool

How well does your organisation comply with the 12 guiding principles of the surveillance camera code of practice? Complete this easy to use self assessment tool to find out if you do.

Using this tool

This self assessment tool will help you and your organisation identify if you're complying with the principles in the code. It should be completed in conjunction with the <u>surveillance camera code of practice</u>. The tool will help you show how well you comply with each principle. It is possible to be largely compliant with some principles and to fall short against others. As a result you will note that at the end of the questions against each principle there is a space to include an action plan. This is to enable you to put actions in place over the next year to improve your compliance to that principle. These boxes can also be used to make a note of what evidence you could produce if required to show your compliance to that principle.

The document contains a combination of open and closed questions. For the open questions there is a limit on how much you can write, so please feel free to include any additional notes as an annex to the document – there are additional blank pages at the end of the tool.

We do not want you to send the self assessment response to us. However, in the interest of transparency we encourage you to publish the self assessment on your website.

The self assessment is for you to satisfy yourself and those that you surveille that you meet the principles and identify any additional work to show compliance.

We would like you to let us know that you have completed this document as this will enable us to understand the level of uptake. Also please let us know if you will be interested in working towards certification against the surveillance camera code of practice in the near future or just be added to our mailing list.

This is the first edition of the self assessment tool which will evolve over time. Please forward any feedback to scc@sccommissioner.gsi.gov.uk

Use of a surveillance camera system must always be for a specified purpose which is in pursuit of a legitimate aim and necessary to meet an identified pressing need.

1. Have you translated principle 1 into clear objectives?

Yes		No
-----	--	----

If so what are they?

2.	Do you regularly review the system and assess against the objectives?	Yes	No
3.	Have you considered the requirement of the end user?	Yes	No
4.	Is the system being used for any other purpose other than those specified? If so please explain	Yes	No

5. Have you identified any areas where further action is required more fully conform with the requirements of Principle 1?

The use of a surveillance camera system must take into account its effect on individuals and their privacy, with regular reviews to ensure its use remains justified.

1.	Do you review your system annually?	Yes	No
2.	Have you conducted a privacy impact assessment? (The ICO has produced a PIA code of practice and the SCC has a template you can use if required)	Yes	No
3.	Do you publish your privacy impact assessment and annual review?	Yes	No

4. Have you identified any areas where further action is required to more fully conform with the requirements of Principle 2?

Action plan

Γ

Principle 3

There must be as much transparency in the use of a surveillance camera system as possible, including a published contact point for access to information and complaints.

1.	Does signage exist highlighting the use of surveillance cameras?	Yes	No
2.	Does the signage highlight the point of contact?	Yes	No
3.	Has there been proportionate consultation and engagement with the public and partners to establish that there is a legitimate aim and a pressing need for the surveillance camera system?	Yes	No
4.	Is the surveillance system a proportionate response?	Yes	No

5.	Does your publication of information include the procedures and safeguards that are in place, impact assessments undertaken, performance statistics and other management information?	Yes	No
6.	Do you have a complaints procedure in place?	Yes	No
7.	Do you make the public aware of how to escalate complaints?	Yes	No
8.	Is there a defined time scale for acknowledging and responding to complaints and is this conveyed to the complainant at the outset?	Yes	No
9.	Do you publish the number and nature of complains received?	Yes	No

10. Have you identified any areas where further action is required to more fully conform with the requirements of Principle 3?Action plan

Principle 4

There must be clear responsibility and accountability for all surveillance camera system activities including images and information collected, held and used.

1. What arrangements are in place to provide clear responsibility and accountability?

2.	Are all staff aware of their responsibilities?	Yes	No
3.	Please explain how you ensure the lines of responsibility are adhered to.		
4.	If jointly owned, is it clear what each partner organisation is responsible for and what the individual obligations are?	Yes	No
5.	Have you identified any areas where further action is required to more fully conform requirements of Principle 4? Action plan	ı with the	
P	rinciple 5		
С	lear rules, policies and procedures must be in place before a surveillance camera sy nd these must be communicated to all who need to comply with them.	stem is u	sed,
1.	Do you have clear policies and procedures which help ensure that any legal obligations affecting the use of such a system are addressed?	Yes	No
	If so please specify.		

2.	Do you follow a quality management system?
	If so please specify.

3.	Are the rules, policies and procedures part of an induction process for all staff?	
----	--	--

4. How do you ensure that all system users remain up to date and efficient with relevant operational, technical, privacy considerations, policies and procedures?

5.	Have you considered qualifications relevant to the role of the system users, such as the National Occupational Standard for CCTV operations or other similar?	Yes	No
6.	If so, have any of your system users undertaken any occupational standards to date?	Yes	No
7.	Do vour system users require SIA licenses?	Yes	

- (Please see SIA website: www.sia.homeoffice.gov.uk)
- **8.** If staff do not need a license, how do you ensure they have the necessary skills and knowledge to use or manage the surveillance system?

9. Have you identified any areas where further action is required to more fully conform with the requirements of Principle 5?

Action plan

Yes

No

No

No more images and information should be stored than that which is strictly required for the stated purpose of a surveillance camera system, and such images and information should be deleted once their purposes have been discharged.

1. On what basis are images retained and for how long?

2.	Do you have an auditable process for reviewing images and managing their retention?	Yes	No
3.	Are there any time constraints in the event of the enforcement agency not taking advantage of the opportunity to view the retained images?	Yes	No
4.	Are there any time constraints which might affect external parties from viewing the images?	Yes	No
5.	Do you quarantine all relevant information and images relating to a reported incident until such time as the incident is resolved and/or all the information and images have been passed on to official third parties?	Yes	No
6.	Have you identified any areas where further action is required to more fully conform requirements of Principle 6?	n with the	

Access to retained images and information should be restricted and there must be clearly defined rules on who can gain access and for what purpose such access is granted; the disclosure of images and information should only take place when it is necessary for such a purpose or for law enforcement purposes.

1.	Do you have a policy on who has access to the stored information?	Yes	No
2.	Do you have a policy on disclosure of information?	Yes	No

3. What checks do you have in place to ensure that the disclosure policy is followed?

4. Have you identified any areas where further action is required to more fully conform with the requirements of Principle 7?

Surveillance camera system operators should consider any approved operational, technical and competency standards relevant to a system and its purpose and work to meet and maintain those standards.

1. What approved operational, technical and competency standards relevant to a surveillance system and its purpose does your system meet?

2. How do you ensure that these standards are followed appropriately?

3. What steps are in place to secure certification against the approved standards?

4. Have you identified any areas where further action is required to more fully conform with the requirements of Principle 8?

Surveillance camera system images and information should be subject to appropriate security measures to safeguard against unauthorised access and use.

1. What security safeguards do you have in place to ensure the integrity of images and information?

- 2. If the system is connected across an organizational network or intranet, do sufficient controls and safeguards exist?
- Yes 🔄 No
- **3.** What is the specified purpose for which the information are being used and accessed and is this consistent with the stated purposes?

_			
4.	Do you have preventative measures in place to guard against misuse of information and images?	Yes	No

- 5. Are your procedures and instructions and/or guidelines regarding the storage, Yes No use and access of surveillance system information documented?
- 6. Have you identified any areas where further action is required to more fully conform with the requirements of Principle 9?

There should be effective review and audit mechanisms to ensure legal requirements, policies and standards are complied with in practice, and regular reports should be published.

1.	Does your system have a review process that shows it still addresses the needs	Yes	No
	and delivers the benefits that justify its use?		

2. Have you identified any cameras that do not remain justified in meeting the stated purpose(s)?

3.	Have you conducted an evaluation in order to compare alternative interventions	Yes	No
	to surveillance cameras?		

If so please provide brief details.

4. Is it cost effective to continue running your surveillance camera system?

Yes

No

Yes

No

5. Have you identified any areas where further action is required to more fully conform with the requirements of Principle 10?

Г

When the use of a surveillance camera system is in pursuit of a legitimate aim, and there is a pressing need for its use, it should then be used in the most effective way to support public safety and law enforcement with the aim of processing images and information of evidential value.

1.	Are the images and information produced by your system of a suitable quality	Yes	No
	for the criminal justice system to use without enhancement?		

2. During the production of the operational requirement for your system, what stakeholder engagement was carried out or guidance followed to ensure exported data would meet the quality required for it to be used for evidential purposes?

3.	Do you have safeguards in place to ensure the forensic integrity of the images and information including a complete audit trail?	Yes	No
4.	Do you have a policy on data storage, security and deletion?	Yes	No
5.	Is the information stored in a format that is easily exportable?	Yes	No
6.	Does the storage ensure the integrity and quality of original recording and the meta data?	Yes	No

7. Have you identified any areas where further action is required to more fully conform with the requirements of Principle 11?

Any information used to support a surveillance camera system which compares against a reference database for matching purposes should be accurate and kept up to date.

1.	Do you use any specialist technology such as ANPR, facial recognition,	Yes	No
	Body Worn Video (BWV) or remotely operated vehicles (Drones)?		

lf so,	please	specify.
--------	--------	----------

2. Do you have a policy in place to ensure that the information contained on your Yes No database is accurate and up to date?

No

No

3.	Do you have a procedure for deciding when and whether an individual or vehicle	Yes
	should be included in a reference database?	

4. What policies are in place to determine how long information remains in the reference database?

5.	Are all staff aware of when surveillance becomes covert surveillance under the	Yes
	Regulation of Investigatory Powers Act (RIPA) 2000?	

6. Have you identified any areas where further action is required to more fully conform with the requirements of Principle 12?
