

Equality Impact Assessment

Service Area: Place, Property and Regeneration

Head of Service: Sarah-Jane Mackenzie -Shapland

Lead Officer: Georgina Carlo-Paat

Date of Assessment: 03/08/2024

Name of policy/function/project/service area to be assessed: Pier Car Park, Ilfracombe – Full Resurface

Brief description of proposal to be assessed: To fully resurface the car park and pedestrian areas and lay down new bay lining and associated road markings

Proposed implementation date of project/proposal: March 2025

Brief description of the anticipated outcomes of the proposal:

Proposal	Current Arrangement	Proposed Arrangement	Comment
To re position pay machines	2 pay machines for 132 spaces	Increase to 3 pay machines and positioned in more visible and convenient locations	To enable easier access to pay machines
To install a new layout for better traffic flow	2 way traffic for majority of the car park	2 way at car park entrance up to a point then 1 way around the main car park	This will alleviate the congestion at the 2 main 'pinch points'
To re orientate the bays for better traffic flow	Drive straight in/out	Lay out to be at an angle to match the one way system	Will give better visibility to drivers if reversing and encourage drivers to follow the one way route
To increase number of motorbike bays	1	1 permanent and 1 seasonal	This will help alleviate the summer issues of increased motorbike visitors
To install a 'wrap round' pedestrian walkway	Limited walkways for pedestrians	Highlight a new continuous pathway with protective bollards or alternative measures to prevent vehicles encroaching on the walkway	Bollards or alternative will prevent vehicles from parking over the walkway and allow access for the vehicle occupiers to the walkway direct from the vehicle.
To increase number of disabled bays and re allocate for easier access to pay machines and walkway	5 disabled bays	Increase to 8 bays and located near the 3 pay machines	This will give easier access to those requiring a disabled bay to the pay machines and also direct access to the walkway

Consultation:

Brief description of any consultation undertaken with stakeholders and summarise the results and how it has influenced the proposal or not. Please attach a summary of consultation results or other relevant reports:

Public consultation carried out from 17th June to 29th July 2024. Summary 169 responses received, 163 as individuals and 6 from organisations. Two main questions were asked.1. When using the Pier Car Park, have you

identified any issues where improvements could be made to improve accessibility for all users? 2. Do you have any suggestions that could be made to the Car Park to improve accessibility and walking around the Car Park to the pier area? Out of a possible 338 responses 28.4% were not relevant to the question asked, 34.6% of those relevant to this proposal there was a call for an all-round pedestrian walkway to be protected from the vehicles, for better access to pay machines for blue badge holders and to increase the number of disabled bays, to locate said bays away from the main car park entrance. 33.7% called for the Car Park to be taken away and the area pedestrianised and to have alternative uses, e.g. Markets area/Pop Up stalls/ Fun Fair. These consultation responses have been the foundation stones of the overall proposals laid out above and in the formation of the Business Case.
